HENRRY MURAÑA BAUTISTA

+34 722 464 208 | contact@henrry.es | https://henrry.es/ | Madrid, Spain

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, SQL
Frontend Frameworks: React.js, Angular (v12+), Next.js, Tailwind CSS
Testing & Tools: Jest, React Testing Library, Karma, Jasmine, Git, GitHub, Vite, RESTful APIs
Backend Familiarity: Node.js, Express.js, Firebase (Firestore, Auth), Appwrite, Xata, Drizzle ORM

EXPERIENCE

Front-End Developer Intern   March 2024 – June 2024
Neoris   *Madrid / Remote*
- Developed and maintained scalable web application components in **Angular 12+**, extensively using **TypeScript** and SCSS for responsive layouts.
- Collaborated on state management architectures using **RxJS**, ensuring seamless data flow and communication with backend services via RESTful APIs.
- Enhanced code quality by creating E2E tests with **Karma** and refactoring legacy code to modern ES6+ standards.
- Participated in code reviews and CI/CD workflows, improving project readability and consistency.

Full-Stack Developer (Front-End Focus)   June 2024 – Present
Derepente Madrid   *Madrid / Hybrid*
- Developed responsive front-end interfaces and campaign dashboards using **Angular** and **React**, significantly improving usability for marketing and creative teams.
- Integrated external APIs (Google Ads, Meta, Analytics) to automate reporting, utilizing modern JavaScript techniques to visualize data effectively.
- Collaborated on the backend architecture using **Node.js** and **TypeScript**, ensuring API endpoints were optimized for frontend consumption and performance.
- Built real-time features using **Firebase**, managing data synchronization to deliver instant updates to the user interface.
- Improved overall application maintainability by organizing controllers and refactoring routes to support cleaner frontend integration.

PROJECTS

Tourvisto – AI-Powered Travel Platform | *React 19, TS, Tailwind, Appwrite*   2025
- Designed and built a modern, responsive UI for a travel agency platform using **React 19** and **Tailwind CSS**, focusing on user experience and accessibility.
- Developed a dynamic admin dashboard for trip management using **Syncfusion** charts, ensuring data was presented clearly and intuitively.
- Implemented client-side logic for an AI-driven itinerary generator, delivering personalized results based on user inputs.

Snapcast – Screen Recording Platform | *Next.js, TS, Tailwind, Bunny.net*   2025
- Built a high-performance video sharing platform using **Next.js App Router**, optimizing Core Web Vitals and rendering speed.
- Created a seamless video playback experience integrated with **Bunny.net** CDN, supporting variable bitrates and custom controls.
- Developed interactive features such as AI-generated video transcripts and search functionality using **Xata** for real-time filtering.

EDUCATION

Universidad Autónoma de Madrid   Madrid, Spain
Bachelor's Degree in Economics (Undergraduate Studies)   *2020 – 2022*

Esic Business & Marketing School   Madrid, Spain
Higher Technician in Web Application Development (CFGS)   *2022 – 2024*
